

## Minisymposium

# Microbial Ecology of Marine and Terrestrial Systems

Center of Functional Ecology  
Faculty of Life Sciences  
University of Vienna

**Tuesday, 22 January 2019**

**12:00 - 14:30**

**Lecture Hall II, UZAI**

12:00-12:20

**Steffen Jørgensen**, University of Bergen, Norway  
“The discovery of the deep biosphere - how it all started”

12:20-13:50

**Taichi Yokokawa**, JAMSTEC, Japan  
“Geographical variability of prokaryotic community structure in the pelagic ocean”

13:50-13:20

**Takuro Nunoura**, JAMSTEC, Japan  
“Filling the gaps in marine microbial ecosystems”

Break 13:20-13:35

13:35-14:00

**Thulani Makhhalanyane**, University of Pretoria, South Africa  
“Microbiomics of the Agulhas current system”

14:00-14:30

**Don Cowan**, University of Pretoria, South Africa  
“Microbial Ecology of the Namib Desert”
